ABSTRACT

The Indian Education Program in Oklahoma is financed and operated under the provision of a contract between the U.S. Bureau of Indian Affairs and the Oklahoma Department of Education and is supervised by the State Department of Education as authorized by the Johnson O'Malley Act (JOM) of 1936. The narrative section of this 1972 annual report discusses free or reduced cost lunches for needy students, the minimum qualifications for inclusion in the JOM programs, teacher and teacher aide programs, the summer programs for Indian students in need of remedial or make-up work, the 14 Indian education coordinators employed by the Indian Division, the average daily attendance during school year 1971-72, and the number of Indian graduates from JOM schools. The statistical report includes exhibits such as the enrollment and attendance 1970-71, Oklahoma State totals for 1970-71 enrollment, the expenditure of contract funds for administration and supervision, a financial statement for the fiscal year ending June 30, 1972, and other allocations of contract funds for 1971-72. A summary of the aforementioned exhibits is presented. Some of the items included in the appendix are the Indian Public School Contract, the Oklahoma plan for administration of JOM funds, and a map of tribal areas in Oklahoma. A related document is ED 066 274. (HBC)

COVER

The cover illustration represents the emblem in the center of the Oklahoma State Flag, which is an Osage Warrior's buckskin shield, decorated with pendant eagle feathers. Across the face of the shield runs the red man's calumet, or pipe of peace, crossed with the white man's peace symbol, the olive branch. The shield implies defensive or protective warfare. The small crosses on the shield are the Indian's graphic sign for stars, which indicate lofty ideals or a purpose for high endeavor. The important symbols, however, are the calumet and the olive branch. These override the shield, the symbol of war, and represent a predominate love of peace by a united people, and the union of the Indian Territory and the Oklahoma Territory into the one great State of Oklahoma.

FOREWORD

The Indian Education Program in Oklahoma is financed and operated under the provision of a contract between the U. S. Bureau of Indian Affairs, Department of The Interior, and the State Department of Education. The supervision of the program is carried out entirely by the State Department of Education as authorized by the Johnson-O'Malley Act of 1936. Prior to 1947 the program was administered by the Indian Bureau.

This Twenty-Fifth Annual Report of Indian Education in Oklahoma has been prepared by the Division of Indian Education to comply with State Contract No. GOOC14201887.

We wish to extend our appreciation to Mr. Virgil Harrington, Area Director of the Muskogee Area; to Mr. Sidney Carney, Area Director of the Anadarko Area; and to their staff members for their cooperation and assistance in carrying out the program of Indian Education.

Sincerely,

Leslie Fisher

NARRATIVE

With 95% of Oklahoma Indian students attending public schools, the improvement of educational opportunities for our Indian youth is the major goal toward which the Indian Division (Johnson-O'Malley) of the State Department of Education has targeted their efforts in school year 1971-72.

School year, 1971-72, was the last year for Johnson-O'Malley funds to be expended on free or reduced cost lunches for needy students. This year was also the final payment of Basic Support to schools. Basic Support payments to 27 schools amounted to $28,533.00. Total lunch payments amounted to $106,612.00 and 251 schools participated at the rate of five cents (5¢) per meal.

Indian students now qualify for free or reduced cost lunches based on the same family income schedule as do non-Indian students. Funds are provided by the Department of Agriculture through the National Hot Lunch Program. Assurance is given under this plan that eligible Indian students will continue to receive free or reduced cost meals.

Much greater emphasis was placed on Indian parental involvement in determining how Johnson-O'Malley funds were expended; in developing and implementing special programs for their local schools that best meet the educational needs of their children.

Each school receiving Special Program funds was required to have an Indian Education Advisory Committee.

To qualify for Johnson-O'Malley Special Program funds, a minimum of 10% of their total school enrollment must be eligible (one-fourth or more degree) Indian students. However, schools with less than 10%

Indian enrollment may qualify by showing an exceptional need in a given area.

The amount of Johnson-O'Malley funds a local school district receives is based on the number of eligible Indian students enrolled; financial need of the school; and educational needs of the participating Indian students.

During this year Johnson-O'Malley funds supported a Teacher Aide workshop held at and conducted by Southeastern State College. 141 aides attended this two-week seminar.

Approximately 700 teachers of Indian students attend 12 clock hours of in-service or Indian awareness training. Six of our institutions of higher learning cooperated with the Indian Division in implementing this highly successful program.

Johnson-O'Malley funds helped to support 49 summer programs in schools enrolling Indian students needing remedial or make-up work.

This year was the first time Johnson-O'Malley funds were used to pay the A.C.T. test fees for Indian seniors.

Perhaps the most popular program funded by Johnson-O'Malley is the 14 Indian Education Coordinators employed by the Indian Division. The Coordinators work with Indian students, Indian parents, school administrators, teachers, counselors, and other agencies to enhance the educational opportunity for our Indian youth.

The services provided by the Coordinators has increased the average daily attendance of Indian students, reduced the drop-out rate and increased the number of our youth pursuing post-high school training.

There were 129 schools participating in Johnson-O'Malley Special Programs during school year, 1971-72. There was a total Indian en-

rollment of 13,809 with an average daily attendance of 12,329; and an attendance per cent of 89. This compares to an 85% attendance for all pupils attending Johnson-O'Malley schools.

The number of Indian graduates from Johnson-O'Malley high schools is 544 and 954 graduated from the eighth grade. The decrease in 1971-72 high school graduates and eighth grade graduates is a result of 143 fewer schools qualifying for the program. There was a total of only 331 drop-outs, compared to 462 last year.

Graduating seniors were counselled by a representative of the Indian Education Division and informed and encouraged to take advantage of the educational opportunities available through the Bureau of Indian Affairs and other sources for post-high school training. Indian seniors in schools not participating in Johnson-O'Malley are also provided this same service. This counselling service has been highly successful in increasing the number of Indians pursuing post-high school courses and guiding them into fields in which they are most likely to be successful.

The Johnson-O'Malley program has been implemented with the excellent cooperation of the Bureau of Indian Affairs officials in the Anadarko and Muskogee Area Offices, the office of the State Superintendent of Public Instruction, and other agencies concerned with the educational opportunities for Indians and many Indian people throughout the State who have contributed to the success of the program.

Finally, a special salute to a wonderful and unexcelled staff of Division of Indian Education, who through their untiring efforts and dedication, have made this a highly successful year.

Note that each column, EXCEPT at the extreme right, is for Johnson-O'Malley assisted Indian students only. The extreme right column is total enrollment of all students, regardless of ethnic group, enrolled in Johnson-O'Malley participating schools.

In the second column from the extreme right, TOTAL COMPL., means the total completing the GRADE.

The difference in total enrollment and average daily attendance, shown on the regular Attendance and Enrollment Table, Exhibit "A" (1) in the two reports, and the Enrollment (Age-Grade-Dropout) Table, is due to a few Johnson-O'Malley schools including some pupils residing in town, and several schools not filing IE-5-A reports. PAYMENTS are made on the basis of the ENROLLMENTS as shown on the Enrollment and Attendance Table Exhibit "A" (1).

OKLAHOMA STATE PLAN
(for Administration of Johnson-O'Malley Funds)
1971-72

Purpose

The purpose of this plan is to outline the procedure to be used in administration of Johnson-O'Malley funds received by the State of Oklahoma and to provide the guidelines within which the school and school districts may participate in the program.

Provisions

1. Johnson-O'Malley funds may be requested by the State for three major purposes as follows: Special Service (Kindergarten through twelth grade), General Support, and Supervision.
2. Eligibility of school districts and schools for Johnson-O'Malley funds from the State, is dependent upon their meeting the following requirements:
   a. Indian parents of the Indian students within the school district, that operate Johnson-O'Malley programs, will select a representative committee of at least five (5) people to help the school administrator develop programs that best meet the educational needs of the Indian student. A letter indicating Indian involvement, accompanied by a budget request, shall be submitted by the school administrator, and be on file in the Indian Education office.

b. Strongly encourage the schools to levy the State average millage to insure maximum local effort.

c. Justify the request for funds based on the need after all other sources of revenue are considered including funds from P.L. 874.

d. Must be eligible for, and receive State Equalization Aid.

3. Eligible Indian pupils shall include only those who possess one-fourth or more degree of Indian blood; and attending a school in which 10% or more of their total enrollment is Indian. Schools with less than 10% Indian enrollment may qualify for Johnson-O'Malley funds by showing an exceptional need in a specific given area.

This applies to Special Services only.

4. Special Services may be requested to provide for a variety of needed services to Indian students. State and Bureau officials will jointly develop Special Service Programs under section d and e of this provision. Special Services may include, but are not limited, to the following:

a. Payment of five cents (5¢) per meal, reimbursement for lunches furnished by the schools in the school year, 1970-71, for eligible Indian pupils. Payment shall be made this year and will mark the end of reimbursement for lunches. If the claim is for fewer than five children, the school is ineligible.

b. Transportation of eligible Indian pupils who live 1-1/2 or more miles from school unless otherwise provided except in schools qualifying for Public Law 874 payments. This does not apply to Indian Boarding School pupils attending Public Schools.

c. Reimbursement for required instructional supplies to school districts enrolling children who stay in Bureau dormitories.

d. Counseling services, by Indian Education Coordinators, in schools and communities with large numbers of Indian children attending school.

e. Other enrichment and special need programs which are designed to meet the different needs of Indian students.

5. Distribution of General Support aid will be made on the basis of average daily attendance of eligible Indian children in schools which have limited and inadequate enrichment funds after all other sources of financing are considered (including Local, State, and Federal.)

a. Eligible Indian pupils shall include only those who possess one-fourth or more degree of Indian blood, and whose parents or guardians reside outside the corporate limits of towns having a population of 500 or more.

6. General Support funds may NOT be provided for schools receiving P.L. 874 payments.

Schools with less than 200 total ADA must have had at least five or more eligible Indian pupils in ADA or 5% of the total ADA, whichever is the greater, the previous school year. Schools with 200 or more total ADA must have had at least 10% or more Indian pupils in ADA the previous year. The amounts granted to these schools is based on a formula as follows:

a. Schools with forty per cent (40%) or more Indian pupil average daily attendance:

(1) With less than one hundred (100) total ADA:

($40.00 -*PLI) x total ADA.

(2) With one hundred (100) or more total ADA:

($30.00 - PLI) x total ADA.

b. Schools with less than forty per cent (40%) Indian pupil average daily attendance:

($40.00 - PLI) x Indian pupil ADA.

*PLI is the Per Capita Local Initiative which is determined by the net income from a levy of 5 mills based on the net valuation of the district for the previous year.

7. Normally, administration costs should not exceed 5% of the total program. However, the allocation for administration should take into account the number of children served, special services provided, and other factors affecting administration provided.

8. Any unobligated funds received from the Bureau of Indian Affairs for any fiscal year shall be offset against the consolidated State budget for ensuing fiscal year. An amount of the State annual contract may be carried over at the end of the fiscal year for administrative and operational costs by the Division of Indian Education, Oklahoma State Department of Education.

9. Periodic and annual visitations to J.O.M. schools are to be made by State Johnson-O'Malley personnel. When it is the desire of Bureau Officials to visit J.O.M. schools for the purpose of observation or evaluation, under "Access to Facilities" clause of the State Contract, it shall be a

joint venture with Johnson-O'Malley personnel. Visits to be made to the extent possible within budget and time limitations. The visits will be made to review schools (enrolling eligible Indian pupils) programs which are supported through Johnson-O'Malley funds. Johnson-O'Malley personnel may visit schools enrolling Indian pupils that are not supported by Johnson-O'Malley funds. It is very important that such programs recognize and provide for the special needs of Indian children. If there are program deficiencies that exist which cannot be fully funded locally or through other sources this should form the basis for future Johnson-O'Malley budgetary requests.

10. A budget request shall be submitted on or before March 15, each year, for the 2nd succeeding fiscal year. Justifications shall accompany the budget request.

11. On, or before August 15, an annual review of the Johnson-O'Malley program and budget request shall be made by State and Bureau officials. Based on this review and visitations to schools, a State Johnson-O'Malley contract is negotiated between the Bureau of Indian Affairs and the State Department of Public Instruction to provide needed financial support within funds available to the Bureau.

12. An Annual Report shall be submitted on or before October 15, each year and shall contain narrative and statistical information regarding the Johnson-O'Malley program in the previous school year. It is mutually agreed by the State Department of Education, Indian Education Division

and Bureau of Indian Affairs officials, that a consolidated Budget, by counties, be prepared in lieu of BIA Manual regulations on an individual school district basis as required by BIA Manual 62 IAM 3.2.11.C.
